

The Bar Marmont Sunset Boulevard

This hip little hang-out next to the Chateau Marmont on the Sunset Strip has been re-worked in and out, by Shawn Hausman Design for Andre Balazs. The Bar, dining room, outdoor patio, and the Sunset Streetscape, including rooftop parapet were renovated to create a fresh new look.

Plantings along Sunset were added to accent both the pedestrian and vehicular entries. Existing Bamboo was pruned, cleaned and replanted to re-invigorate the hedge it forms. Roof top planters filled with white, variegated Potato Vine were installed above the second story roof parapet to soften the architecture and screen a large billboard's scaffolding. Decorative pots with growing cables were arranged to take advantage of the existing patio design, while providing over head interest and shading.
