

Matt Randolph | Principal Landscape Architect
ASLA California Landscape Architect #4400

Matt's experience with complex and innovative projects guides the work of the studio from design conception to implementation. His understanding and love of gardens, horticulture and construction, coupled with his experiences, enables our studio to create textured and provocative landscapes. Matt's role in the design and installation of museum gardens, the renovation of historic landscapes, native and roof top gardens has resulted in beautiful spaces people can learn from and enjoy. His attention to detail and direct communication with clients and project teams increases efficiency and produces quality finished installations. Matt oversees the development of hardscape and water structures, irrigation systems, lighting systems, and horticultural practices.

Education

California State Polytechnic University, Pomona, California
Bachelors of Science in Landscape Architecture, 1996

Amy Korn | Design Principal
ASLA

Amy Korn is a founding partner and Design Principal of kornrandolph, inc. Her professional experience and design process leads the studio in the creation of sophisticated and timeless landscapes with an artful response to project opportunities. Her forward thinking design solutions make possible well-organized dynamic livable spaces for a wide variety of project types. Amy is dedicated to working with design team professionals to help facilitate creative problem solving techniques that encourage thoughtful solutions in keeping with project design directives. She has organized and facilitated community design charrettes with a good sense and understanding of social dynamics as they relate to project design goals. Amy has received formal training in the development and design of healing gardens at the 'Rusk Institute of Rehabilitation Medicine, New York' and with the 'National Center for Boundless Playgrounds' for universal community playground design. She also plays an important role in the construction documentation and administration phases, where her aesthetic insight continues to add value.

Amy's project experience includes museum gardens, historic preservation and restoration, public plazas, resort/hotels, estate gardens, campus design, healing gardens, community/children's gardens, and habitat restoration.
